

### DTCO1381 AND DTCO 3283 (RUSSIA)

## TACHOGRAPH PROGRAMMER CD400

Calibrates and programs all analogue and digital tachographs

Multi language : English – Deutsch – Español – Français – Nederlands  
Português – Italian - Turkish - Romanian – Serbian – Russian

### SUPPORTED TACHOGRAPHS

Digital VDO (DTCO1381)

Digital Actia (SmarTach)

Digital Stoneridge  
(SE5000)

VR2400

FTCO1319

MTCO 1324/1390

Motometer EGK100

K1308/1311/1314/1318

Digital EFKON (EFAS)

### MAIN FUNCTIONS

- ▶ Measure W factor (*Manual & Photo-cell*)
- ▶ Measure K factor
- ▶ Parameters setup
- ▶ Bench test (*Manual & automatic*)
- ▶ Odometer test
- ▶ Read DTCs
- ▶ Erase DTCs
- ▶ Sensor pairing (*KITAS*)
- ▶ Clock test

### ADVANTAGES

- ✓ **Double accuracy** : Manual W measure improved by detecting fractions of pulses.
- ✓ **Compact size** : The smallest programmer on the market.
- ✓ **Powered by the tachograph** : No power cable nor battery required.
- ✓ **Very easy to use** : Clear four lines menus, no training required
- ✓ **Automatic tachograph detection** : Tachograph model is detected on power ON.
- ✓ **Flash program memory** : Easy upgrade using a serial port.
